Re: Harold D. Thompson Regional Water Reclamation Facility (HDTRWRF)
Lower Fountain Metropolitan Sewage Disposal District (LFMSDD)

Dear Wes:

Reference is made to your shop submittal identified as follows:

Submittal No.:	05500-011
Date of Submittal:	March 28, 2012, 1:53 p.m.
Title:	Secondary Clarifier Splitter Structure & Lapeyre Stair
Specification Section:	05500 – Metal Fabrications
Manufacturers:	CMS Industrial Constructors; Lapeyre Stair, Inc

The referenced submittal has been stamped "**No Exception Taken**". Our comments are as follows:

1. We acknowledge receipt of the comments provided by WCMI including coating of the embed angle and lowering the landing elevation 1 inch to accommodate a 36-inch stair.
2. The "Description" on the Lapeyre Stair, Inc. detail sheet indicates the stairs are to be, "36 Inch 56 Degree Carbon Steel Stair, Galvanized with Standard Narrow Handrail." We take no exception to the proposed stairs with a riser height of 7.2 inches, the overall 36-inch height, the 56 degree carbon steel stair with hot-dipped galvanizing.
3. Secondary clarifier splitter structure grating and embed material:
 - a. Sheet 1
 - 1) We take no exception to the dimensioning as shown; however, the outside dimensions shown appear to be approximately ½-inch long.
 - b. Sheet 2
 - 1) We take no exception to the layout of the embed material. Again we note the outside dimensions to be approximately ½-inch longer than shown on the drawings.

Mr. Wes Weaver
