Re: Harold D. Thompson Regional Water Reclamation Facility (HDTRWRF)
Lower Fountain Metropolitan Sewage Disposal District (LFMSDD)

Dear Wes:

Reference is made to your shop submittal identified as follows:

Submittal No.:	09900-002
Date of Submittal:	April 2, 2012
Title:	Paint Systems at Pumping & Disinfection Building, Aeration & Digester Basins, Aeration Level Control Structure & Wye Structure
Specification Section:	09900 – Painting
Manufacturer:	Sherwin-Williams

The referenced submittal has been stamped "***No Exception Taken***" and "***Revise and Resubmit***". Our comments are as follows:

1. On February 22, 2012, GMS, Inc. responded to a complete coatings submittal prepared by Applewood Painting for Devoe International Coatings. The submittal provided an equivalent to the Tnemec coatings noted in our project specifications under Specification Section 09900-Painting.
2. On April 2, 2012, GMS, Inc. received a second coatings submittal prepared by National Coatings, Inc. for Sherwin-Williams coating products being submitted as equivalents to the Tnemec coatings noted in Specification Section 09900-Painting.
3. The time required to review a complete coatings submittal is significant. We take no exception to the use of Sherwin-Williams products; however, as the coating supplier utilizes Sherwin-Williams products in this project we request the specific product be submitted and reviewed on an as-needed basis due to the time required to review another complete submittal.

Mr. Wes Weaver

4. We request the coatings contractor provide a submittal for each coating proposed for use on the project if it differs from those already approved.

Please call if you should have any questions.

Sincerely,

David R. Frisch, P.L.S.
